Dear Mr. Sidhu,

On behalf of the entire Access Health Dental team, I wanted to formally thank you and the entire Milagro team for all of your efforts the past many weeks in designing our website (www.AccessHealthDental.com). I know that your team was working under extreme time constraints due to our mandate to launch the website in concert with the formal re-banding of the entire business and your team delivered. Not only did we meet this deadline, the design, layout and overall feel of the website has exceeded our expectations. We have had great response from our patients and know that this will help drive future growth.

I look forward to building upon our relationship with you and the Milagro team as we look to expand our business and enter new territories.

Regards,
