

To whom this may concern:

It is my pleasure to recommend Milagro to your organization. I have been consistently impressed with their work and productivity during our 8-year relationship, starting with the delivery of our first project in 2012.

Milagro started with us when we were one company and have grown with us as we've expanded several additional entities. Over our 8-year business relationship, some of the projects they've developed for us and continue to work on include:

- Development of our three corporate websites: Nevada Dental Benefits, PrimeCare Administrators and PrimeCare Dental Plan
- Design and development of digital marketing collateral – corporate brochures, product brochures, flyers, quarterly newsletters, business stationary, etc.
- Design and development of interactive forms
- Development / management of network / service provider directory / database – 4,000 + service providers
- Design and management of digital marketing campaigns
- Maintenance and support for website and online assets

I would certainly recommend Milagro without reservation, and am confident they will make a valuable contribution to your company.

If you require additional information, please do not hesitate to reach out to me.

Sincerely,

*Crystal M. Robbins*
